Are you due a refund from revenue?

Now more than ever we need to find ways to put money back in our pocket and getting a tax review is just one. Having one of our tax experts carry out a full review of your tax credits and allowances could result in a nice refund from Revenue.

Not only that, we will explain your taxes to you in plain English. Based on the information you give us we may find other tax credits, allowances or savings which you are not aware of.

Perhaps you have rental property income, dividend income or stock options at work that you need to file returns for? Let us help you find out if there is any liability due on these. Take control of your taxes and get peace of mind!

How do we work?

We charge our fees on a project basis as no two cases are the same. We offer you a Free Consultation to understand exactly what you need and quote you for the work required to complete your project. Your fee is agreed upfront and paid for at the outset of your assignment.

Have you received correspondence from Revenue?

It's not uncommon to receive queries from Revenue from time to time or maybe you have been selected for Revenue Audit.

Not all queries result in Audits and not all Audits result in significant penalties.

Talk to us today if you are concerned about correspondence received from Revenue.

Regardless what area of your taxes are on your mind, we can help.
